

Clubhouse After Hours Access for Individuals Guidelines

Effective August 4, 2017, the following procedure will be adopted on a trial basis. A resident that desires access to the clubhouse after normal operating hours can schedule a time via email with the Clubhouse Manager and their Fob will be activated for that time interval. The request must be made during normal clubhouse operating hours and at least 24 hours in advance. Access priority goes first to recognized committees and clubs, next Board approved functions including resident rentals and last, are resident ad-hoc functions. The requester may bring up to 3 other residents with him/her. The requester will be responsible for operation and care of the Clubhouse (locking doors, setting alarm, and clean up). The purpose of this guideline is to allow residents to enter the Clubhouse to play pool, to play cards, access the library or watch TV. The trial period will last 90 days.
