

Roseheart House Number Plaques

For residents wishing to add a street number plaque to their home, the pre-approved the “Hartford Address Plaque” in Black/Gold or Green/Gold may be used. These plaques are available online from SmartSign.com Part #WP 3014

<http://www.smartsign.com/hartford-standard-one-line-wall-plaque/sku-wp-3014>

Alternately residents may substitute a plaque, which is equal to the Harford. Substitutions should be made of cast aluminum and measure 7.25” high X 16” long with a rating for exterior use. A serif style font should match the Hartford, as should the colors. All substitutions must be approved by the Roseheart ACC

Address plaques should be located immediately adjacent to existing light fixtures on the house.

For residents concerned about nighttime visibility of the address on the front light pole, a single ground-level accent light can also be installed to illuminate the address on the pole.
